Jeaneanne, I hope!

Ex. 6 Personal Privacy (PP)

I have been trying to figure out a way to focus this discussion tomorrow. If I am out of my lane just tell me. My sense is it is important for Mary, and my management, to understand what is left for the state to do to complete a package, and more importantly, what we can do to be prepared regardless of when we get a package.

On the first issue, you have had the benefit of the biweekly updates. I have attached the most recent version from last week which to me is a good briefing tool to walk through rather than the larger briefing package. It can focus the discussion. Your choice.

On the second issue Leif, Suzanne, Mita, Matt and I talked about that today before we talked to you and then after. I also talked to Rosemary and Tom. The workgroup has been discussing some of the issues for some time and in response to your request, they have continued that effort. Rosemary and I plan to sit down tomorrow AM to draft a list of what we will need to do once a package comes in and identify specifically what we can do ahead of time. I know you listed items on the call today, but I thought writing that list down would help, at least me. I have given it some thought and have a few ideas to add to the list. We would be ready to go over that at the pre brief if you wanted us to.

Leif and Suzanne have asked that I stay here next week to work on those documents which is fine. I gave plenty of work to do and I also wanted to see Matt Leopold while he was here so it worked out.
